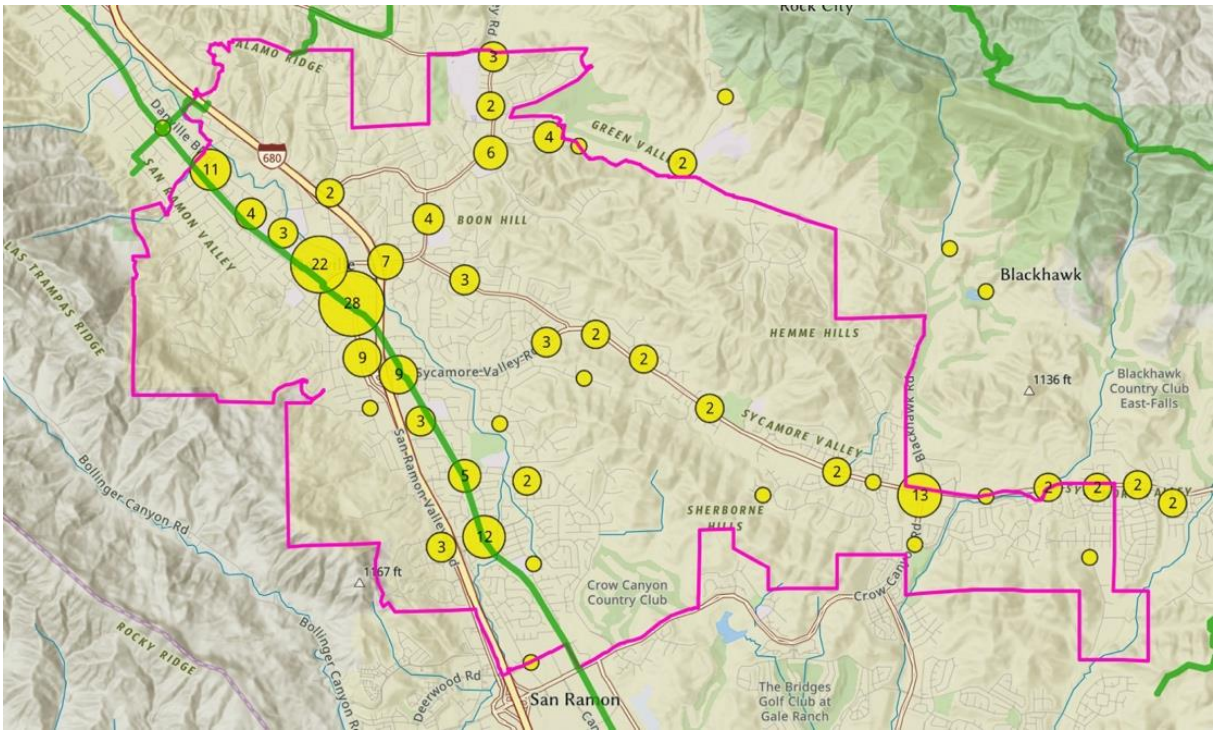
Subject: Introducing Interactive Danville Bike - Vehicle Collision Maps

Dear Danville Town Council Members, Renee Morgan, Karen Stepper, Mark Belotz, Robert Storer and Newell Arnerich

February 24, 2025

As the popularity of traditional bicycles, e-bikes, and e-scooters continues to increase in Danville, so do the challenges associated with ensuring their safe use on our roads and trails. In response, **Danville Safety Advocates** is pleased to introduce our new **Interactive Cluster & Heat Maps**—a dynamic tool that visualizes **188 documented bike-vehicle collisions** within our community. Special thanks to Bruce Bilodeau for creating these amazing maps….

Open this link to view the Interactive Bike-Vehicle Collision Custer & Heat Maps



These maps offer a detailed overview of high-risk areas, enabling residents, city officials, and transportation planners to identify where collisions and injuries most frequently occur. By analyzing these data points, Danville Safety Advocates intends to advocate for improved infrastructure, enhanced safety measures, and policy changes that will ultimately create safer streets and trails for everyone.

We strongly encourage you to review these maps and collaborate with us to implement the necessary safety enhancements. Your leadership is essential in making Danville a more bike- and pedestrian-friendly community. Together, we can turn these data insights into actionable strategies that reduce collisions and enhance safety for all road users.

Thank you for your time and attention to this important matter. Danville Safety Advocates looks forward to working with the Town of Danville to create safer streets and a better environment for cyclists, pedestrians and motorists.

Sincerely,
Danville Safety Advocates - Jeff Eorio, Kyle Smith, Chris Kenber, Gary Spinella, Jennifer Fish, Alan Kalin, Paul Schroeder, Rick Edmondson, Charlie Wills, Scott Parr, Nicola Place, Paul Ambrose, Gary Brannan, Deepinder Singh, David Cheung, K. Sue Duncan, Sunyo Suhaimi, Barbara Hailey, Ted Trambley, Bob Miller, Henry Turko, Tony Soby, Rahman Batin, Dan Rom, Nora Crans, Ken Mozek, Raghu Chemla Venkata and Susan Roberts
